Independent Auditor's Report

The Board of Directors
Central Virginia Electric Cooperative
Arrington, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of Central Virginia Electric Cooperative which comprise the balance sheets as of December 31, 2016 and 2015 and the related statements of operations and comprehensive income, equities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Cooperative's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Cooperative's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Central Virginia Electric Cooperative as of December 31, 2016 and 2015, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Other Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our report dated March 15, 2017, on our consideration of Central Virginia Electric Cooperative's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audits.

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note A - Significant Accounting Policies

Nature of Operations

Central Virginia Electric Cooperative (the "Cooperative") is a member-owned, not-for-profit cooperative organized to provide electric service to its members. The Cooperative's main office is located in Arrington, Virginia and the service area extends through portions of the counties of Albemarle, Amherst, Appomattox, Augusta, Buckingham, Campbell, Cumberland, Fluvanna, Goochland, Greene, Louisa, Nelson, Orange, Prince Edward and the towns of Appomattox, Gordonsville and Scottsville.

Basis of Presentation

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), including GAAP for regulated operations.

The system of accounts of the Cooperative is maintained in accordance with the Uniform System of Accounts as prescribed by the Federal Energy Regulatory Commission (FERC) for Class A and B electric utilities modified for electric borrowers of the Rural Utilities Service (RUS).

Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Electric Plant

Electric plant is stated at the original cost of construction which includes the cost of contracted services, direct labor, materials and overhead items. Contributions from others toward the construction of electric plant are credited to the applicable plant accounts. When property, which represents a retirement unit, is replaced or removed, the average cost of such property as determined from the continuing property records is credited to electric plant and such cost, together with cost of removal less salvage is charged to the accumulated provision for depreciation.

Maintenance and repairs, including the renewal of minor items of plant not comprising a retirement unit, are charged to the appropriate maintenance accounts, except that repairs of transportation and service equipment are charged to clearing accounts and redistributed to operating expenses and other accounts.

Cash and Cash Equivalents

The Cooperative considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note A - Significant Accounting Policies - Continued

Depreciation

Provision for depreciation has been made by application of the straight-line method to the original cost, by groups of depreciable properties in service. Current depreciation rates, which are estimated to amortize the cost of plant over the service lives, were as follows:

Production plant	4.00%
Transmission plant	2.75%
Distribution plant	1.80% - 10.00%
General plant	2.34% - 33.33%

Materials and Supplies

Inventories of the Cooperative consisted of materials and supplies and are generally used for construction, operation and maintenance work and are not for resale. They are valued at the lower of moving average unit cost or market.

Revenue Recognition and Accounts Receivable

The Cooperative records electric revenues as energy is delivered to consumers.

The billing rate schedules of the Cooperative contain provisions to either increase or decrease the consumers' billings from the base level billing schedules dependent upon the wholesale power cost from the supplier of electric energy purchased for resale.

The Cooperative provides for uncollectible accounts based on a percentage of sales which past experience has indicated will be uncollectible. When accounts are deemed to be uncollectible, they are charged against the provision for uncollectible accounts.

Income Taxes

The Cooperative has been granted exemption from income tax under Internal Revenue Service Code Section 501(c)(12). The Cooperative evaluates the filing positions in all federal and state jurisdictions where it is required to file income tax returns, including its status as a tax-exempt electric cooperative entity. The Cooperative believes its income tax filing positions, including its status as a tax-exempt entity will be sustained and does not anticipate any adjustment that will result in a material change to its financial position. Tax filings ending on or after December 31, 2013 remain subject to examination by federal and state taxing authorities.

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note A - Significant Accounting Policies - Continued

Regulatory Assets and Liabilities

The Cooperative complies with the accounting guidance set forth by the Accounting Standards Codification (ASC) Topic 980 regarding the effect of certain types of regulation. This guidance allows a regulated Cooperative to record certain costs and credits that have been or are expected to be allowed in the ratemaking process in a period different from the period in which the costs would be charged to expense or income by a non-regulated enterprise. Accordingly, the Cooperative records certain assets and liabilities that result from the regulated ratemaking process that would not be recorded under GAAP for non-regulated entities.

Subsequent Events

Subsequent events have been evaluated through March 15, 2017, which is the date the financial statements were available to be issued.

Advertising Costs

The Cooperative expenses advertising costs as incurred.

Investments

Investments in associated organizations are primarily composed of patronage capital assigned from associated organizations. These investments are recorded at costs plus allocated equities. Other investments are recorded at cost.

Reclassifications

Certain reclassifications were made to the 2015 balances to conform to the 2016 presentation. As a result of these reclassifications, there were no changes to net margins, comprehensive income, or equity.

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note B - Electric Plant

Listed below were the major classes of electric plant:

	December 31,	
	2016	2015
Distribution plant	\$ 185,998,895	\$ 180,910,467
General plant	21,580,068	23,106,340
Transmission plant	14,256,929	14,256,930
Intangible plant	2,126,286	2,126,286
Production plant	663,204	663,204
Electric plant in service	224,625,382	221,063,227
Construction work in progress	6,658,041	7,406,926
	<u>\$ 231,283,423</u>	<u>\$ 228,470,153</u>

The Cooperative followed the guidance as set forth in the ASC Topic 410, Asset Retirement and Environmental Obligations in determining it had no legal asset retirement obligations for the years ended December 31, 2016 and 2015. Regarding non-legal retirement obligations, the Cooperative follows the regulatory principle of inter-generational cost allocation by including net salvage (gross salvage less cost of removal) as a component of depreciation rates.

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note C - Investments in Associated Organizations

Investments in associated organizations consisted of the following:

	December 31,	
	2016	2015
Patronage Capital:		
National Rural Utilities Cooperative Finance Corporation (CFC)	\$ 775,619	\$ 714,355
CoBank	168,082	172,566
Other	308,718	207,077
	<u>1,252,419</u>	<u>1,093,998</u>
Capital Term Certificates (CTC's):		
SCTC's	854,193	854,193
LCTC's	210,600	210,600
ZCTC's	65,547	69,424
	<u>1,130,340</u>	<u>1,134,217</u>
Other:		
CFC member capital certificates	25,000	25,000
Membership fees	3,471	3,471
	<u>28,471</u>	<u>28,471</u>
	<u>\$ 2,411,230</u>	<u>\$ 2,256,686</u>

The CTC's are unsecured and subordinated. The SCTC's and LCTC's bear interest at an annual rate of 3.0%. The ZCTC's are non-interest bearing. The CTC's are required to be maintained under the note agreement with CFC and are similar to compensating bank balances.

The CFC member capital certificates are unsecured and subordinated and bear interest at an annual rate of 5.0% payable semiannually.

Note D - Concentrations of Credit Risk

The Cooperative places its cash on deposit with financial institutions located in the United States of America, which are insured by the Federal Deposit Insurance Corporation (FDIC). The FDIC provides insurance coverage for up to \$250,000 of cash held by the Cooperative in each separate FDIC insured bank and savings institution. From time to time, the Cooperative may have amounts on deposit in excess of the insured limits. As of December 31, 2016, the Cooperative had approximately \$1,051,000 of deposits that exceed the insured limits.

Concentrations of credit risk with respect to consumer accounts receivable and unbilled revenue generally are limited due to the large number of consumers comprising the customer base.

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note E - Accounts Receivable

Accounts receivable consisted of the following:

	December 31,	
	2016	2015
Consumer accounts	\$ 5,468,653	\$ 4,853,389
Unbilled revenue	5,314,092	3,461,110
Other	503,386	140,813
	<u>11,286,131</u>	<u>8,455,312</u>
Less provision for uncollectible accounts	<u>196,503</u>	<u>268,152</u>
	<u>\$ 11,089,628</u>	<u>\$ 8,187,160</u>

Note F - Deferred Charges

Deferred charges consisted of the following:

	December 31,	
	2016	2015
Regulatory asset - pension prior service cost	\$ 2,253,311	\$ 2,628,863
Preliminary survey	923,265	44,091
Regulatory asset - deferred power costs	354,094	830,981
Other	166,355	169,525
	<u>\$ 3,697,025</u>	<u>\$ 3,673,460</u>

Note G - Patronage Capital

Patronage capital consisted of the following:

	December 31,	
	2016	2015
Assigned	\$ 48,328,213	\$ 48,687,963
Assignable	2,092,465	1,131,851
	<u>\$ 50,420,678</u>	<u>\$ 49,819,814</u>

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note G - Patronage Capital - Continued

Under provisions of the long-term debt agreement and Title 7 of the Code of Federal Regulations (Part 1717.617), the Cooperative may refund capital to patrons without limitation if total equity is equal to or greater than 30% of total assets, and there are no instances of default. If equities are between 20% and 30% of total assets, general refunds are limited to 25% (adjusted for returns to estates, which are not limited) of patronage capital or margins received in the next preceding year, unless a waiver is approved by RUS. Total equities and margins amounted to approximately 30% of total assets for the years ended December 31, 2016 and 2015.

Note H - Long-Term Debt

Long-term debt consisted of the following:

	December 31,	
	2016	2015
Federal Financing Bank (FFB) - Mortgage notes, fixed	\$ 65,172,849	\$ 66,826,957
CFC - Mortgage notes, fixed	40,103,261	42,643,647
CoBank - Mortgage note, fixed	3,650,284	1,766,931
	108,926,394	111,237,535
Less current portion	4,490,958	4,390,029
	<u>\$ 104,435,436</u>	<u>\$ 106,847,506</u>

Approximate future maturities of long-term debt were as follows:

<u>Year Ending December 31,</u>	
2017	\$ 4,490,958
2018	4,520,987
2019	4,624,603
2020	4,861,294
2021	5,046,099
Thereafter	85,382,453
	<u>\$ 108,926,394</u>

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note H - Long-Term Debt - Continued

Substantially all of the Cooperative's assets have been pledged as collateral for the long-term debt to CFC, CoBank and FFB. Under the term of the loan agreements with RUS and CFC, there are certain restrictions which include requirements to maintain a TIER (times interest earned ratio) and DSC (debt service coverage) of 1.25. There were also restrictions on the return of capital to patrons as discussed in Note G. As of December 31, 2016 and 2015, the Cooperative was in compliance with all covenants and restrictions.

During 2016 and 2015, the Cooperative elected to participate in the RUS cushion of credit program, whereby a portion of principal and interest payments are prepaid to RUS and earn interest at a rate of 5.00%. There were no prepayments made by the Cooperative for the year ended December 31, 2016 and 2015.

Terms and payments relating to the Cooperative's outstanding long-term debt as of December 31, 2016 and 2015 consisted of the following:

<u>Lender</u>	<u>Terms</u>	<u>Maturity dates</u>	<u>Interest rates</u>	<u>Approximate principal and interest payments</u>
<u>As of December 31, 2016</u>				
FFB	30-35 years, quarterly	06/2030 - 12/2047	2.15% - 6.37%	\$ 1,040,000
CFC	35 years, monthly and quarterly	06/2017 - 03/2033	3.30% - 7.90%	647,000
CoBank	28 years, monthly	10/2027 - 09/2031	3.18% - 7.68%	33,000
<u>As of December 31, 2015</u>				
FFB	30-35 years, quarterly	06/2030 - 12/2047	2.15% - 6.37%	\$ 695,000
CFC	35 years, monthly and quarterly	06/2016 - 03/2033	3.30% - 7.90%	737,000
CoBank	28 years, monthly	10/2027	7.68%	19,000

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note H - Long-Term Debt - Continued

Unadvanced loan funds of the Cooperative consisted of the following:

	December 31,	
	2016	2015
FFB	\$	\$ 250,000

The Cooperative has a \$9,700,000 line of credit with CFC at a variable interest rate (2.50% at December 31, 2016). Outstanding advances against the line of credit were \$9,000,000 at December 31, 2016. There was no outstanding advance against the line of credit at December 31, 2015. The Cooperative also has a \$1,000,000 line of credit with CoBank at a variable interest rate (2.87% at December 31, 2016). There were no outstanding advances against the line of credit at December 31, 2016 and 2015.

Note I - Deferred Credits

Deferred credits consisted of the following:

	December 31,	
	2016	2015
Consumer advances for construction	\$ 2,067,823	\$ 2,626,027
Special equipment installation costs		67,380
	<u>\$ 2,067,823</u>	<u>\$ 2,693,407</u>

Note J - Retirement Plans

Deferred Income Plan

The Cooperative has a deferred compensation 401(k) plan for substantially all employees whereby the participants may voluntarily contribute. The Cooperative contributes to the plan 50% of the employees' contribution, not to exceed 2.5%. The cost to the Cooperative for the years ended December 31, 2016 and 2015 was approximately \$1,410,000 and \$1,356,000, respectively. Effective January 1, 2015, the Cooperative continued to match a portion of employees' salary deferral, with the limit increased from 5% to 6%, and a contribution not to exceed 3.0%.

Note J - Retirement Plans - Continued

Pension Plan

The retirement Security Plan (RS Plan), sponsored by the National Rural Electric Cooperative (NRECA), is a defined benefit pension plan qualified under Section 401 and tax-exempt under Section 501(a) of the Internal Revenue Code. It is considered a multiemployer plan under the accounting standards. The plan sponsor's Employer Identification Number is 53-0116145 and the Plan Number is 333.

A unique characteristic of a multiemployer plan compared to a single employer plan is that all plan assets are available to pay benefits of any plan participant. Separate asset accounts are not maintained for participating employers. This means that assets contributed by one employer may be used to provide benefits to employees of other participating employers.

The Cooperative's contributions to the RS Plan in 2016 and in 2015 represented less than 5 percent of the total contributions made to the plan by all participating employers. The Cooperative made contributions to the plan for the year ended of approximately \$934,000 for the year ended December 31, 2016.

For the RS Plan, a "zone status" determination is not required, and therefore not determined, under the Pension Protection Act (PPA) of 2006. In addition, the accumulated benefit obligations and plan assets are not determined or allocated separately by individual employer. In total, the RS Plan was over 80 percent funded at January 1, 2016 and January 1, 2015 based on the PPA funding target and PPA actuarial value of assets on those dates.

Because the provisions of the PPA do not apply to the RS Plan, funding improvement plans and surcharges are not applicable. Future contribution requirements are determined each year as part of the actuarial valuation of the plan and may change as a result of plan experience.

Effective January 1, 2015, the Cooperative transitioned from the RS Plan to an enhanced 401(k) plan. The intent is to provide a sustainable retirement plan that allows the Cooperative to remain competitive for talent in the electric utility industry, while balancing the need for predictable costs associated with the plan. The RS Plan benefits have been frozen and employees will no longer accrue additional benefits under the plan. The new 401(k) plan provides for non-elective Cooperative contributions based on a tiered schedule, with tiers varying based on age and years of service.

Note K - Other Noncurrent Liabilities

Other noncurrent liabilities, as reported on the balance sheet, consisted of the following:

	December 31,	
	2016	2015
Other postretirement benefits	\$ 1,699,016	\$ 2,273,974
Other	387,886	400,582
	<u>\$ 2,086,902</u>	<u>\$ 2,674,556</u>

December 31, 2016 and 2015

Note K - Other Noncurrent Liabilities - Continued

Postretirement Benefits Other than Pensions

The Cooperative sponsors a defined benefit postretirement medical and dental insurance plan that covers substantially all of its employees, their dependents, and one retired director.

Employees hired on or before July 31, 2000 who reach the age of 55 and have 30 years of service become eligible to receive employer sponsored medical and dental benefits indefinitely. Employees hired on or after August 1, 2000, who reach the age of 55 and have 30 years of service become eligible to receive employer sponsored medical and dental benefits until the age of 65, when there are no longer employer sponsored benefits.

The premium for the retired director is based on the smaller of the retiree health insurance premium or the cap of \$5,200 per covered person. In both instances, the spouse must pay 25% of the premium.

Effective January 2012, employees hired on or after January 1, 2012 are not eligible to receive employer sponsored post-retirement medical and dental benefits.

The following sets forth the benefit obligation with the funded status of the plan in accordance with ASC Topic 715:

	December 31,	
	2016	2015
Accumulated Postretirement Benefit		
Obligation (APBO):		
APBO at beginning of year	\$ 5,748,720	\$ 5,076,730
Interest cost	234,985	234,570
Actuarial (gain) loss	(217,552)	612,042
Service cost	109,787	117,804
Plan participant contributions	44,619	50,168
Benefit payments	(350,439)	(342,594)
APBO at end of year	5,570,120	5,748,720
Change in fair value of plan assets:		
Fair value of plan assets at beginning of year	3,174,746	3,244,544
Actual return on plan assets	71,419	228,719
Unrealized gain (loss)	224,939	(298,517)
Employer contributions		
Fair value of plan assets at end of year	3,471,104	3,174,746
Funded status	(2,099,016)	(2,573,974)
Less current portion	400,000	300,000
	\$ (1,699,016)	\$ (2,273,974)

Postretirement Benefits Other than Pensions - Continued

The net periodic postretirement benefit cost included the following:

	Year Ended December 31,	
	2016	2015
Interest cost	\$ 234,985	\$ 234,570
Service cost	109,787	117,804
Amortization of actuarial loss	80,757	91,516
Amortization of prior service cost	58,668	58,668
Return on plan assets	(71,419)	(228,719)
Amortization of benefits offer		143,985
	<u>\$ 412,778</u>	<u>\$ 417,824</u>

Assumptions and effects were as follows:

	December 31,	
	2016	2015
Actuarial assumptions		
Medical trend rate next year	8.00%	8.00%
Ultimate trend rate	5.00%	5.00%
Year ultimate trend rate is achieved	2022	2022
Discount rate	4.30%	4.12%
Measurement date	12/31/2016	12/31/2015
Long-term rate of return on assets	7.00%	7.00%
Effect of 1% increase in health care cost trend rate on:		
APBO	\$ 306,295	\$ 308,487
Interest cost plus service cost	\$ 23,359	\$ 24,269

Investments in plan assets were allocated as follows:

	December 31,	
	2016	2015
Equity funds	32%	35%
Fixed income funds	65%	59%
Other	3%	6%

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note K - Other Noncurrent Liabilities - Continued

The long-term return on plan assets was determined by taking the expected annual rates of return for each asset class based on the ten-year return (or since inception) and taking a weighted average based on the market values of the asset classes as of December 31, 2016 and 2015. The Cooperative's investment strategy with respect to plan assets is designed to achieve a moderate level of overall portfolio risk in keeping with its desired risk objective, which is established after careful consideration of plan liabilities, plan funded status and the Cooperative's overall financial condition.

The fair value of plan assets is based on quoted market prices as of December 31, 2016, which are considered Level 1 inputs and defined as a quoted market price in active markets for identical assets.

The estimated net loss and prior service cost for the plan that is expected to amortize from accumulated comprehensive income into net periodic benefit cost over the next fiscal year consisted of the following at December 31, 2016:

Expected amortization of actuarial loss, net	\$ 64,000
Expected amortization of prior service cost	\$ 59,000

Amounts in accumulated other comprehensive loss not recognized in net periodic benefit cost consist of the following:

	December 31,	
	2016	2015
Unrecognized actuarial loss, net	\$ 1,272,573	\$ 1,570,882
Unrecognized prior service cost	329,868	388,536
Unrealized (gain) loss on investments	73,568	298,517
	<u>\$ 1,676,009</u>	<u>\$ 2,257,935</u>

Estimated future benefit payments are shown net of employee contributions and are as follows:

<u>Year Ending December 31,</u>	
2017	\$ 306,376
2018	\$ 304,318
2019	\$ 300,756
2020	\$ 270,455
2021	\$ 265,996
2022 - 2026	\$ 1,526,057

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note K - Other Noncurrent Liabilities - Continued

Defined Benefit Plan

The Cooperative has entered into a defined benefit agreement with the former president of the Cooperative which provides for annual benefit payments to be made over the individual's lifetime. The present value of the estimated future payments under this agreement was accrued over the active employment period and amounted to approximately \$438,000 and \$451,000 as of December 31, 2016 and 2015, respectively. The Cooperative has funded this plan with a life insurance annuity contract with a cash surrender value amounting to approximately \$764,000 and \$731,000 at December 31, 2016 and 2015, respectively.

Note L - Financial Instruments Carried at Cost

The Cooperative has recorded all financial instruments based on the carrying amount (book value) in the financial statements in accordance with ASC Topic 825. According to guidance, the Cooperative is required to disclose the fair value of those financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using discounted cash flow analysis. This technique involves subjective judgment and is significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. As a result, the derived fair value estimates cannot be substantiated by comparison to independent markets, and in many cases, could not be realized in immediate settlement of the instrument. Accordingly, the following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it was practicable to estimate that value.

Cash and Cash Equivalents

The carrying amount of cash and cash equivalents approximates fair value due to the short maturity of these instruments.

Investments in Associated Organizations

Fair value of capital term certificates was determined by computing the present value of estimated future cash flows, discounted at the long-term treasury rate of 3.06% and 3.01% for the years ending December 31, 2016 and 2015, respectively. The fair value of patronage capital is not determinable since no legal obligation exists to retire capital credits. The carrying value of memberships approximates fair value.

Accounts Receivable

The carrying amount of accounts receivable approximates fair value due to the short period of time amounts are outstanding.

Accounts Payable

The carrying amount of accounts payable approximates fair value due to the short period of time amounts are outstanding.

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note L - Financial Instruments Carried at Cost - Continued

Long-Term Debt

The carrying amounts of the Cooperative's fixed long-term debt include certain interest rates that are below quoted market prices for the same or similar issues. Therefore, the fair value of fixed long-term debt is estimated based on current market prices for the same or similar issues offered for debt of the same and remaining maturities which was 5.85% for the years ending December 31, 2016 and 2015.

Consumer Deposits

The carrying amount approximates fair value due to the relatively short maturity of the deposits.

The estimated fair values of the Cooperative's financial instruments were as follows:

	December 31,			
	2016		2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets:				
Capital term certificates	\$ 1,130,340	\$ 1,555,000	\$ 1,134,217	\$ 1,657,000
Member capital certificates	\$ 25,000	\$ 50,000	\$ 25,000	\$ 50,000
Liabilities:				
Long-term debt, including current portion	\$ 108,926,394	\$ 107,832,000	\$ 111,237,535	\$ 66,376,000

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note M - Fair Value Measurements

The Cooperative follows the guidance issued by FASB as it relates to the accounting and disclosure requirements for assets and liabilities reported at fair value.

Accounting for fair value measurements establishes a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.

Level 2 - Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.

The following table summarized the financial assets measured at fair value:

	December 31, 2016			
	Total	Level 1	Level 2	Level 3
Fixed income funds	\$ 2,215,375	\$ 2,215,375	\$	\$
Equity funds	1,108,240	1,108,240		
Total financial assets	<u>\$ 3,323,615</u>	<u>\$ 3,323,615</u>	<u>\$</u>	<u>\$</u>
	December 31, 2015			
	Total	Level 1	Level 2	Level 3
Fixed income funds	\$ 1,903,300	\$ 1,903,300	\$	\$
Equity funds	1,134,494	1,134,494		
Total financial assets	<u>\$ 3,037,794</u>	<u>\$ 3,037,794</u>	<u>\$</u>	<u>\$</u>

There were no financial liabilities measured at fair value as of December 31, 2016 and 2015.

Notes to Financial Statements

Central Virginia Electric Cooperative

December 31, 2016 and 2015

Note N - Commitments and Contingencies

The Cooperative has entered into long-term and short-term physically delivered forward purchase contracts with various counterparties in order to fulfill the Cooperative's power supply needs after the wholesale power agreement with Constellation expired. At December 31, 2016, the Cooperative's power supply commitments for future periods, relating to these contracts which expire on various dates through 2027, totaled approximately \$131,000,000. The Cooperative is also taking delivery of energy and capacity from the AMP Freemont Energy Center and 4 MW of the Blue Creek Wind generation facility.

During 2015, the Cooperative's full requirements contract with Constellation Power Source (Constellation) expired. This agreement required the Cooperative to purchase approximately 86% of its energy needs from Constellation. Also, the Cooperative's agreement with American Municipal Power (AMP) to assign delivery of 4.15% of the energy output of AMP Freemont Energy Center to Michigan South Central Power Agency expired.

Note O - Related Party Transactions

The Cooperative was a member of the following organizations and conducted business transactions during the current and prior years as set forth below:

CoBank

The Cooperative was a member of CoBank, a national financing organization, and had a line of credit and mortgage note payable with the organization, as explained in Note H.

CFC

The Cooperative was a member of CFC, a national financing organization, and, as explained in Notes C and H, had investment assets, mortgage notes payable, and a line of credit at various interest rates and maturities.

Electric Research and Manufacturing Cooperatives, Inc. (ERMCO)

The Cooperative was a member of ERMCO and purchased materials and supplies for construction and maintenance of utility plant.

Virginia, Maryland & Delaware Association (VMDA)

The Cooperative is a member of VMDA. The purpose of VMDA is to provide those services that can be best performed in a group effort on a state or regional basis, which include public and members relations, government affairs, human resource development, technical services, legal services and educational seminars.

Federated Rural Electric Insurance Corporation (Federated)

The Cooperative is a member of Federated and purchases its general property and liability coverage as well as worker's compensation coverage from this corporation.

**Supplemental Matters Required by the
Rural Utilities Service**

**Independent Auditor’s Report on Internal Control over Financial
Reporting and on Compliance and Other Matters Based on
an Audit of Financial Statements Performed
in Accordance with Government Auditing Standards**

The Board of Directors
Central Virginia Electric Cooperative
Arrington, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Central Virginia Electric Cooperative (the “Cooperative”), which comprise the balance sheets as of December 31, 2016 and 2015, and the related statements of operations and comprehensive income, equities and cash flows for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated March 15, 2017.

Internal Control over Financial Reporting

In planning and performing our audits of the financial statements, we considered the Cooperative’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Cooperative’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Cooperative’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audits we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Cooperative's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Cooperative's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the Cooperative's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Adams, Jenkins & Cheatham

Richmond, Virginia
March 15, 2017

**Independent Auditor’s Report on Compliance With
Aspects of Contractual Agreements and Regulatory
Requirements for Electric Borrowers**

The Board of Directors
Central Virginia Electric Cooperative
Arrington, Virginia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Central Virginia Electric Cooperative (the “Cooperative”), which comprise the balance sheet as of December 31, 2016, and the related statements of operations and comprehensive income, equities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 15, 2017. In accordance with *Government Auditing Standards*, we have also issued a report dated March 15, 2017 on our consideration of the Cooperative’s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. No reports other than the reports referred to above have been furnished to management.

In connection with our audit, nothing came to our attention that caused us to believe that the Cooperative failed to comply with the terms, covenants, provisions, or conditions of their loan, grant, and security instruments as set forth in 7 CFR Part 1773, *Policy on Audits of Rural Utilities Service Borrowers*, §1773.33 and clarified in the RUS policy memorandum dated February 7, 2014, insofar as they relate to accounting matters as enumerated below. However, our audit was not directed primarily toward obtaining knowledge of noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Cooperative’s noncompliance with the above-referenced terms, covenants, provisions, or conditions of the contractual agreements and regulatory requirements, insofar as they related to accounting matters. In connection with our audit, we noted no matters regarding the Cooperative’s accounting and records to indicate that the Cooperative did not:

- Maintain adequate and effective accounting procedures;
- Utilize adequate and fair methods for accumulating and recording labor, material, and overhead costs, and the distribution of these costs to construction, retirement, and maintenance or other expense accounts;
- Reconcile continuing property records to the controlling general ledger plant accounts;
- Clear construction accounts and accrue depreciation on completed construction;
- Record and properly price the retirement of plant;

- Seek approval of the sale, lease or transfer of capital assets and disposition of proceeds for the sale or lease of plant, material, or scrap;
- Maintain adequate control over materials and supplies;
- Prepare accurate and timely Financial and Operating Reports;
- Obtain written RUS approval to enter into any contract for the management, operations, or maintenance of the borrower's system if the contract covers all or substantially all of the electric system;
- Disclose material related party transactions in the financial statements, in accordance with requirements for related parties in generally accepted accounting principles;
- Record depreciation in accordance with RUS requirements (See RUS Bulletin 183-1, Depreciation Rates and Procedures);
- Comply with the requirements for the detailed schedule of deferred debits and deferred credits; and
- Comply with the requirements for the detailed schedule of investments.

This report is intended solely for the information and use of the board of directors, management, and the RUS and supplemental lenders and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
